Candy Crush is one of the most popular puzzle games in the world. With its simple gameplay, colorful graphics, and addictive nature, it has captivated millions of players since its release in 2012. However, Candy Crush is not the only game of its kind. There are many other games like Candy Crush that offer similar gameplay and appeal to a wide audience. In this article, we will explore some of the best games like candy crush.

Zookeeper Battle

Zookeeper Battle follows a similar formula to the popular game Candy Crush Saga, as it involves matching layers of tiles that feature cute creatures. Additionally, this

game offers entertaining play elements, which can be as engaging as other competitive

Zookeeper Battle allows players to access various special attacks that they can use against their opponents. The game also features unique abilities that players can unlock by matching uncommon elements. For instance, matching elephants and hippos can enhance defense stats.

Puzzle & Dragons

Puzzle and Dragons is a game that successfully combines RPG and tile-matching mechanics. It boasts attractive visuals, engaging characters, and addictive gameplay, much like Pokémon Shuffle Mobile, as it allows players to collect creatures from various fictional universes.

This free-to-play game features in-app purchases that can make gameplay easier, but many players argue that they are not necessary to fully enjoy the game. Puzzle and Dragons respects its players' time by providing them with value. Puzzle and Dragons is an excellent example of a well-executed free-to-play mobile game, even though it may not present a considerable challenge, it is still a game that is worth playing.

Jewel Mania

Jewel Mania is a popular game in the list of **games like candy crush**, but instead of smashing candy, you are breaking glass and digging for treasure. Both games offer compelling tile-matching gameplay that can become addictive and enjoyable over time. With over 600 levels to play, Jewel Mania becomes increasingly challenging as you progress.

The game's visuals are impressive, making it a top-tier mobile game. The animations are stunning, and the sound effects are well-balanced enough to enhance the gameplay experience. With the 600+ levels providing enough variety and nuance, the game is worthy of several play sessions.

Two Dots

While the appearance of Two Dots may seem simple, the game becomes increasingly complex as you progress. Each level takes place in a different world, with unique mechanics and objectives. The goal is to connect the dots to complete the level, and there are various mechanics that add difficulty to the gameplay. However, once you understand these mechanics, the levels become easier to finish quickly.

One of the game's best features is that there is no time limit on each level, allowing you to play at your own pace and without pressure. Two Dots is a game that can be played and enjoyed by people of all ages due to its straightforward gameplay and lack of time restrictions.

Triple Town

Triple Town is another popular name on the list of **games like candy crush** that was initially released on the Amazon Kindle a decade ago. The game eventually became available on social networks and other mobile devices. Despite the popularity of Candy Crush Saga, Triple Town managed to gain significant traction by adding a unique twist to the classic match-three mechanic.

In Triple Town, players must upgrade the grid as if developing a settlement or town. This adds an extra layer of strategy to the gameplay that sets it apart from

other match-three games. Despite its competition, **Angry Birds** remains a popular and enjoyable mobile game for players. It's a great example of a game that has made a significant impact on the genre.
